PROFILE

"I am a committed, hard working, self motivated graduated with excellent interpersonal skills. I am an individual with a strong interest in technology who seeks opportunities to expand and improve my IT skills. I would appreciate an internship opportunity to gain new experiences and look forward to taking on new challenges. I want to add value to my internship by utilizing my skills from self study and experience while also challenging myself."

WORK EXPIRENCE

Intern

2024 July - present

• **Donext | Ambalangoda, Southern Province, Sri Lanka**
Developed and deployed full-stack web applications using Next.js, React, TypeScript, Tailwind CSS, and PostgreSQL. My projects include Learning Management System, LK Model Zone, Potimate, and contributions to various other projects, showcasing expertise in building responsive, high-performance websites and applications.

EDUCATION

University of Plymouth

2020 - 2023 (**Completed**)

• BSc (Hons) in Software Engineering

Awarded: Second Class Honours (Upper Division)

ST. Servatius College Matara

• G.C.E Advanced Level Examination(2018)- Physical Science Stream.
• G.C.E. Ordinary Level Examination(2015)- Subject including ICT.

PROJECT EXPERIENCE

MERN Stack with React Native Project (Final Project) - Vehicle Automotive Spare Parts Sales Platform
• This system fosters strong client relationships by offering a user-friendly platform for Sri Lankan citizens to buy and sell genuine spare parts effortlessly. With efficient categorization, a seamless buying experience, and the ability to locate nearby repair centers, it serves as a one-stop solution for automotive needs, catering to both Administrators and Users.
• **Technologies used: ReactJS, React Native, ExpressJS, NodeJS, MongoDB , GitHub and Microsoft Azure**

MEAN Stack Project (3rd Year 1st Semester project) - Web Application School Management System
• E-Learning management system for school A/L students with including all functionalities for teachers students and admins.
• **Technologies used: AngularJS, ExpressJS, NodeJS, MongoDB and GitHub**

C# with ASP.NET project (2nd Year 2nd Semester project) - Web Application Accident Management System
• Collaborative web app for Sri Lankan Road Development Authority Police & Insurance Cos. Enables easy driver reporting & tracks accidents. Graphs display accident types causes & frequency for enhanced analysis & safer roads.
• **Technologies used: ASP.NET with C#, Microsoft SQL Server and GitHub**

Java MVC Project (2nd Year 1st Semester project) - Web application for Hotel Management System
• A web-based application is included all the functionalities with the Hotel management system.
• **Technologies used: Java, Servlet, JSP and MySQL**

COMPETITIONS

• Participated in Google hackathon - 2021

EXTRA CURRICULAR ACTIVITIES

• ST. Servatius College Sports Club

LANGUAGES

• Sinhala
• English
